CAT TERM PRESIDENCY PROGRAM, Istanbul 2008

- Developing the existing **collaboration and communication between the FABSR members**
- Encouraging all the professional organizations covered by the **enlarged definition of the Black Sea basin** to become the members of the FABSR
- Improvement of FABSR activities through the development of **common projects and periodical activities**
- Establishment of links of the FABSR with **regional administrations, governments, institutions, research centers**
- Creation of a **Black Sea Architectural Database**

Actions about the FABSR members communication and network

- FABSR members' contact information were updated and an efficient network of contact persons established. Istanbul Declaration and Resolutions were sent to all members. Coordination among FABSR members was improved.

Ankara, 14 August 2008

Actions about the FABSR members communication and network

- CAT aimed to follow actual developments in the region and act in the sense of solidarity: Letter Sent to Russian and Georgian FABSR Members about Conflict between Russia and Georgia (14 August 2008)
- CAT maintained contacts to welcome new members from the enlarged definition of the Black Sea basin. We are now expecting to have Greece as a new member.

Letter Sent to Union of Architects of Russia (UAR) President Yury Gnedovsky and Georgian Union of Architects President David Abuladze.

Subject: Recent Conflict between Russia and Georgia

Dear President,

In the framework of the Forum of Architects of the Black Sea Region (FABSR), we are working together as architects of this region, for protecting and developing our heritage and values, based on our long-established common history and culture.

As we always believed in the significance and uniqueness of the diversity and harmony in our region, the recent conflict between Russia and Georgia has deeply worried us. Our worry is first of all because of the lost people, who have lived together in this geography for centuries no matter of their diversity and differences. And in the second place, such armed conflicts cause destruction our living environments, as well as natural and cultural heritage.

We are all aware that the Caucasus region has always suffered from interventions of imperial powers and tensions because of its strategic importance in world politics and economy. However, I believe that this geography also has the capacity to calm down the aggressions resulting from this tension and to re-settle peace, with its underlying harmony based on common history and culture. Being aware that we will continue to live together in this geography as we have done for centuries, I am wishing sensitivity, empathy and common sense to my Russian and Georgian colleagues. I am hoping that the recent initiatives regarding cease-fire and peace will yield positive results for both countries as soon as possible.

Best regards,

Bülend Tuna
President

FABSR Meeting to be Held in Trabzon, 16-17 May 2009

The Chamber of Architects of Turkey (CAT), the Term President of FABSR, will host a FABSR event on 16-17 May 2009 in Trabzon-Turkey.

On 16 May, there will be a half-day working meeting with FABSR organizations, while in the afternoon a panel with the theme "Change and Continuity in the Black Sea" will be realized with presentations and discussions. On 17 May, participants will be attending a trip to some Black Sea coastal settlements.

During the program, a photo exhibition with the theme "Urban and Rural Settlements in the Black Sea" will be open in the meeting venue. This exhibition was prepared with the contribution of FABSR members and CAT Branches located in the Black Sea Region.

FORUM OF ARCHITECTS
OF THE BLACK SEA REGION (FABSR)
DRAFT TERMS OF REFERENCE

*To be approved by authorized representatives of National Organizations of Architects
in the Black Sea Region on 16 May 2009, in Trabzon*

Preamble

The authorized representatives of the National Organizations of Architects from the Black Sea Region countries formed the Forum of Architects of the Black Sea Region (hereinafter referred to as "the Forum") as an international non-political, voluntary, public organization.

The Forum was established on 12 October 1995 at the First Conference of Architects of the Black Sea Region in Tbilisi-Georgia by the authorized representatives of the National Organizations of Architects from the Black Sea Region countries.

The main purpose of the Forum is to combine professional efforts of architects of the Black Sea Region with the purpose of attaining the region's cultural, ecological, social, economic well-being.

Membership

Membership to the Forum is open to National Organizations of Architects from all countries involved in the Black Sea Economic Cooperation (BSEC), as well as of other interested countries covered by the enlarged definition of the Black Sea basin.

Any international or local officially registered organization, which shares the aims and principles of the Forum, can apply for Observer Membership.

Actions to improve FABSR structure and operation

- For a better operation of the FABSR structure, we need to discuss and define the main principles of FABSR administration as well as the duration and frequency of administrative terms and conferences. We have a draft text for **FABSR Terms of Reference** in the Trabzon meeting.
- This text is a further developed and summarized version of a regulative document that was discussed by FABSR in 1996.

Thank you!
